# JACKSON OHANIAN

(815) 345 - 0830
jacksonohanian@gmail.com

### Profile

Current Statistics and Computer Science student graduating May 2021, looking for an entry level position into the Data Science and Software Engineering fields in the form of a part of full-time job or internship. My project portfolio, with a focus on statistical exploration, is hosted at jackson-ohanian.github.io

### Experience

**Shift Manager, DP Dough BCW; Champaign, IL — 2018–Present**
Shift Manager position entailing employee training, day-to-day operations.

**Freelance UI and Software Design — 2018-Present**
Freelanced projects ranging from scripting to full capability mobile applications, primarily using Swift, C and Python.

### Education

**University of Illinois Urbana-Champaign, IL - B.Sc. Statistics & Computer Science - Aug. 2018 - May 2021**
Currently enrolled in a Bachelors of Science program in Statistics & Computer Science that I expect to graduate in the spring of next year.

### Skills

- Statistical and Data Analysis, Regression and Learning using R, Python

- Software Design and general programming, strongest in C/C++, Java but able to adapt to different project requirements quickly

- Data Structures and Science, Data Scraping - comfortable with cleaning and using common frameworks of big data

- Individualistic worker comfortable in teams
